

INDEX

- Aggregation, 369
- Albertson, F. W., article, 449
- Appalachian Valley, 87
- Aquatic populations, 311
- Ascoschongastia, 151

- Baker, Rollin H., article, 393
- Biotic community, 253
- Brooks, John Langdon, article, 409

- California, 185
- Carpenter, Stanley J., article, 31
- Chemicals, water-soluble, use in mesquite eradication, 109
- Clarke, George L., articles, 321, 336
- Climate, 6, 258
- Climax,
 - prairie, 12
 - lake forest, 228
- Cole, Lamont C., article, 49
- Communities, 251, 253, 262
- Crops,
 - in fresh-water, 375
 - in ocean, 324
- Crowding, 377
- Cryptozoa, 49, 55, 58, 127
- Cyclomorphosis, 409

- Daphnia, 409
- Desert Shrub Biome, 251
- Distribution, 33, 67, 135, 181
- Drought, effect on mixed prairie reduction, 449
- Dust, effect on mixed prairie reduction, 449
- Dyksterhuis, E. J., article, 1
- Dynamics, 311

- Ecological Factors and Reforestation, Great Appalachian Valley, 87
- Edmondson, W. T., articles, 336, 357
- Exploitation, 383

- Faunal lists, 56, 146, 203, 304, 388
- Fautin, Reed W., article, 251

- Fishes, 373
- Fisher, C. E., article, 109
- Food, 141, 326, 330, 333, 341, 368, 377, 380, 387, 422, 424
- Forage, 17
- Forest, 49, 127, 395
 - Hardwood, 213
 - Lake, 211, 230
 - Pine, 213
 - Wisconsin and Michigan primeval, phytosociology of, 211
- Fresh-water, 339
- Fults, Jess L., article, 109

- Geology, 6
- Georges Bank, 328
- Grasses, short, dominance as a result of drought and dust, 449
- Guam, 393

- Hewatt, Willis G., article, 185
- Hopp, Henry, article, 109

- Illinois, 49
- Influents, 274

- Jenkins, Dale W., article, 31

- Litter, 131

- Mariana Islands, 393
- Marine ecology, 185, 321
- Mesquite eradication, use of oils and water-soluble chemicals in, 109
- Methods, 10, 34, 53, 91, 111, 130, 163, 166, 173, 189, 213, 257, 350, 398
- Michigan, 211
- Microfauna, 49, 127
- Minekler, Leon S., article, 87
- Mites, 151
- Mortality, 93
- Mosquitoes, 31

- North America, 31
- Nutrition, 141, 326, 330, 333, 341, 368, 377, 380, 387, 424

- Ocean, 185
- Oils, use in mesquite eradication, 109

- Park, Thomas, article, 313
- Pearse, A. S., article, 127
- Phytosociology of primeval forest in Wisconsin and Michigan, 211
- Plankton, 331, 339, 345, 370
- Plantations, 93, 95
- Plantings, 91, 106
- Populations, 313, 393, 407
- Post-glacial history of lake forest formation, 211
- Potzger, J. E., article, 211
- Prairie, 1
 - Fort Worth, vegetation of, 1
 - mixed, reduction to short grass, 449
- Precipitation, 92, 130, 259
- Production, 311, 323, 336, 382

- Reforestation in Great Appalachian Valley, 87
- Ricker, William E., article, 336, 373
- Rodents, 393, 407
- Rotifers, 357

- Santa Cruz Island, 185
- Schmitt, Waldo L., article, 208
- Seasonal distribution, 19, 24, 68, 133, 342, 364
- Shrimps, 208
- Soils, 6
 - animals, 131
- Species, 359
- Subsere, 12

- Temperatures, 130, 188, 259, 332, 366, 376, 381, 430
- Tennessee, 87
- Texas, 1

- Utah, 251

- Vegetation, 10, 16, 93, 109
 - Fort Worth Prairie, 1

- Water-soluble chemicals, 109
- Weaver, J. E., article, 449
- Wharton, G. W., article, 151
- Wisconsin, 211
- Woodland, 49, 127
